Julie Lind is part of DLA Piper's Intellectual Property and Technology team. She has expertise in intellectual property rights, contracts, cybersecurity, GDPR, and marketing law. She has experience in both drafting and negotiating commercial agreements for small to large enterprises, including customer agreements, cooperation agreements, and license agreements. She regularly assists companies with data management and GDPR compliance and has helped companies implement international standards such as ISO 27701. She also has experience in dispute resolution. Julie is actively involved in the startup community. Over the past year, she has been involved with TheFactory Gründer Academy and StartupLab, advising several startup companies on matters within her area of expertise.
