

The largest law firm in the Nordics

Kaare Oftedal
Partner, Sector Head, Renewable Energy

Hans Christian Brodtkorb
Partner, Chairman of the Board (Norway)

With 588 lawyers and a total revenue of EUR 155 million we retain our position as the largest law firm in the Nordic region.

The newspaper Norwegian Financial Daily (Finansavisen) recently published [an article](#) (in Norwegian) focusing on the most significant players in the legal sector in the Nordics. We still hold the leading position in the region, both by headcount and revenue.

"A few years ago we saw an opportunity in the legal market. We laid out a strategy to become the largest law firm in the Nordic region, and the only global law firm with offices in Sweden, Denmark, Finland and Norway. We are proud to have succeeded in this, and that in spite of fierce competition we still maintain our number one position in the Nordic region", says [Hans Christian Brodtkorb](#), Chairman of the Nordic Board and partner, Norway.

A short summary of the article:

"The Nordic region is more than just Norway and Sweden. British-American DLA Piper have offices in both countries, plus Denmark and Finland. The Nordic initiative is led by Hans Christian Brodtkorb, partner in DLA Piper Norway.

The 588 lawyers in the Nordic region last year had a total revenue of 155 million euros.

DLA Piper have retained that position this year as well."
